 - ABILITY TO TAKE INITIATIVES AND TO WORK COMFORTABLY IN SMALL AND LARGE GROUPS.
- **TECHNICAL**
 - PROFESSIONAL KNOWLEDGE OF MODERN TOOLS

HOBBIES & INTERESTS

Aspirations

My prime objective is to find a respectable position in a leading organization that will lead to professional advancement and a better future through the utilizing of my experience, qualification and skills. Looking ahead to my career, I would ideally be practicing in a firm that made ideals of sustainability, social as well as environmental, a primary concern. I'm convinced that issues of environmental sustainability can only be fully addressed in design if it also takes social responsibility into account and vice versa.
